Agenda Website — Updated Requirements

Version: 1.1
Domain: humanrightsagenda.org
Languages: Arabic and English
Platforms: Public Website + Admin Dashboard

---

1. Public Website

The website contains four main pages and two detail-page types.

Page	Main Function
Home	Featured publications, events, and Agenda overview
Publications	Search, filter, and explore publications
Publication Details	Read publication details, preview/download PDFs
Events	Search, filter, and explore events
Event Details	View complete event information
About Us	Founders' biographies, vision, and mission

1.1 Home Page

Section 1 — Featured Publications Slider

- Main title
- Subtitle
- Full slider image
- Publication date
- Publication category (Reports, Blogs, Papers, Briefings)
- Founder/author name for blogs
- Manual previous/next slider navigation
- Clickable publication linking to its details page
- Clickable blog author linking to their biography on About Us

Admin Control: Administrators manually select which publications appear in the slider.

Section 2 — Publications Catalogue

- Displays selected publications.
- Each card contains an image, title, category, and date.
- Clicking a publication opens its details page.
- View All Publications button.

Section 3 — Events Catalogue

- Displays up to three events.
- Each card contains an image, title, and event date.
- Clicking an event opens its details page.
- View All Events button.

Admin Control: Administrators manually select the three events displayed.

Section 4 — About Us Overview

- Short organizational introduction
- Vision
- Mission
- Link to the complete About Us page

1.2 Publications Page

Route: /publications

Displays all publications in a searchable, filterable catalogue.

Search: Search publications by title.

Category Filter:

- All
- Reports
- Blogs
- Papers
- Briefings

Publication Details Page

Field	Requirements

Main Title	Arabic and English
Subtitle	Arabic and English
Main Image	Large banner
Sub-images	Image gallery
Publication Date	Date displayed to visitors
Category	Report / Blog / Paper / Briefing
Description	Markdown content
PDF	Online preview and download
Author	Founder selection for blog publications

Author Navigation

- Only founders can be assigned as blog authors.
- Every founder has a biography on the About Us page.
- Clicking a blog author's name navigates directly to that founder's biography.

1.3 Events Page

Route: /events

Displays all events with search and filtering.

Search: Search events by title.

Filter: Filter by event record creation date.

Event Details Page

Field	Requirements
Main Title	Arabic and English
Subtitle	Arabic and English
Main Image	Large banner
Sub-images	Image gallery
Event Date	Event date

Description Markdown content

Important: Event date and creation date are separate fields. Visitors see the event date, while the filter uses the record's creation date.

1.4 About Us Page

Section 1 — Founders' Biographies

Each founder has:

- Profile image
- Full name
- Biography
- Professional area / position
- Email address
- Unique biography section for direct linking

Only founders can be associated with blog publications.

Section 2 — Organization

- Vision
- Mission
- Additional organizational information where applicable

---

2. Admin Dashboard

The Admin Dashboard is responsible for managing publications, events, and their homepage visibility.

2.1 Administrator Authentication

- Secure administrator login
- Protected admin routes
- Logout functionality

2.2 Publications Management

Administrators can:

- Create publications

- View publication records
- Edit publications
- Delete publications
- Assign publication categories
- Assign a founder as the author of a blog
- Upload main images
- Upload and remove sub-images
- Write Markdown descriptions
- Upload PDF documents
- Enter Arabic and English content
- Select publications for the Home page slider
- Manage slider ordering

Publication Form Fields

Field	Type
Main Title (AR / EN)	Text
Subtitle (AR / EN)	Text
Main Image	Image upload
Sub-images	Multiple image upload
Date	Date picker
Category	Select
Author	Founder selection (Blogs only)
Description (AR / EN)	Markdown editor
PDF Attachment	PDF upload
Featured on Home	Selection control
Slider Position	Ordering control

2.3 Events Management

Administrators can:

- Create events
- View event records
- Edit events
- Delete events
- Upload main images and sub-images
- Write descriptions using Markdown
- Enter Arabic and English content
- Manually select three events for the homepage
- Manage homepage event ordering

Event Form Fields

Field	Type
Main Title (AR / EN)	Text
Subtitle (AR / EN)	Text
Main Image	Image upload
Sub-images	Multiple image upload
Event Date	Date picker
Description (AR / EN)	Markdown editor
Featured on Home	Selection control
Homepage Position	Ordering control
Creation Date	Automatically generated

2.4 Homepage Content Management

The administrator has control over:

Featured Publications

- Select publications for the slider.
- Remove publications from the slider.
- Reorder selected publications.

Featured Events

- Select up to three events.
- Change the selected events.
- Reorder the three events.

The Home page automatically reflects the administrator's saved selections.

2.5 About Us Content

The Admin Dashboard does **not** manage founder biographies, vision, or mission.

These will be maintained as website content outside the Admin Dashboard, unless this requirement changes later.

---

3. Language and Localization Requirements

The public website supports:

- Arabic — RTL (right-to-left)
- English — LTR (left-to-right)

Functional Requirements

- Language switcher
- Navigation labels translated into both languages
- Arabic and English publication content
- Arabic and English event content
- Appropriate text alignment and direction
- Responsive layouts in both languages
- Markdown rendering for both languages

The Admin Dashboard must allow entering and editing localized publication and event content.

---

4. PDF Functionality

Publications can have attached PDF documents.

Preview

- Visitors can open and read the PDF in the browser.

- The PDF preview should support standard document navigation.

Download

- Provide a Download PDF button.
- Visitors can save a copy of the document.

The PDF attachment is managed through the publication form in the Admin Dashboard.

---

5. Homepage Selection Rules

Content	Selection	Managed By
Featured slider publications	Manual	Admin
